Hastings Downed Again.

The Hastings Club defeated the Omaha club yesterday afternoon by a score of 15 to 9. The game was witnessed by about 500 people. Houseman and Harter formed the battery for the home team, with Brown and Ehrig for the visitors. Houseman pitched an excellent game. He is setting a good record, and will doubtless do well at the bat during the season. He showed up good at the bat, rapping Brown for a three-bagger and scoring twice during the game. He keeps a close watch of the bases during the play and does good work generally. The holding of the home team one-hand catch by Messitt in right field at a critical point being a feature of the game. The visitors played fairly good ball, but spoiled most of their good plays by rank errors. Rohrer, who played second base for the visitors, distinguished himself by working a home run on a long fly to center, the first home run that has been made on the Omaha grounds since the regular season commenced in a faultless manner. The detailed score is as follows:

Another Chicago Strike Impending.

Chicago, April 27.—A strike directly affecting 5,000 or 6,000 brick carriers and laborers, and necessarily involving practically all the bricklayers, plasterers and stonemasons in the city, will probably be inaugurated May 1, and building operations in Chicago promise to be indefinitely suspended again. The brick carriers and laborers, following the example of the members of the association, will refuse to recognize the brick carriers union. The officers of the union began to-night arranging for a mass meeting, at which it is expected a strike will be officially declared.

Sad Fatalities.

Pottsville, Pa., April 27.—Five men were suffocated by gas in the Ashland colliery to-day.

Baltimore, April 27.—Three sons of G. W. Wayward were drowned to-day by the upsetting of a sail boat.

Weather Indications.

For Nebraska: Slightly cooler, generally fair weather, variable winds generally from north to east.

At Cortland, Thursday Evening, April 28th.

Miss Amy Sherwin, the celebrated soprano; Mr. Johann Rhodes, the talented violinist; Mr. Thos. J. Pennell, Mrs. Oscar Gunkel and the Mendelssohn quartette, consisting of Mrs. J. W. Cotton, soprano; Miss Minnie Rath, contralto; Mrs. W. W. G. tenor; and Mr. E. H. Frane, bass. Mr. Martin Cahn has been secured as accompanist.

ONE HUNDRED YEARS OLD.

Commemoration of Unland's Birthday by Appreciative Germans.

Tuesday evening a grand celebration of the one hundredth anniversary of the birth of Ludwig Unland, the German poet and patriot, was held at Germania hall under the auspices of the Omaha Turnverein. It was taken part in by the Wurtemberg society, as also by a number of the leading German citizens. Mr. Unland, president of the Verein, was the orator of the evening. He spoke in German, reviewing the poet's life from the time of his birth till his death in 1802. He spoke in English of his own personal knowledge of the poet's life, his professorship of German in the Tabern university, his membership of the national assembly at Frankfurt in 1848. His ballads were interesting, but his lyrical poems enriched German literature with a new type, a new model and made the poet the head of the well known Suabian school. He was studiously devoted to the sciences, and his life of quietude and seclusion interfered with his poetical productivity as did his active participation in politics after 1810. In this field he played a conspicuous and noble part. Mr. Unland dwelt upon the life of the hero with the ardor and devotion of a worshipper, and delivered a speech more eloquent than anything he has thus far done in this hall. The literary exercises consisted of recitations in German, of selections from Unland, for two prizes, a silver and gold medal. The first of these was won by Professor Hoppe, the second by Ernest G. Grube. The other reciters were Fritz Brandes and A. Felhusen.

A Feather Weight Fight.

Boston, April 27.—(Special Telegram to the Bee.)—Young Aaron, of Hyde Park, and an unknown of South Boston, met in a south end lodge room last night for the featherweight championship of the United States, and a purse of \$5,000. There were but twenty persons present, who paid \$25 each. The match was to a finish with two-ones gloves. Aaron recently fought a draw with Weir, the Belfast Spider, and afterward challenged him to fight for the featherweight championship, but his challenge was not accepted. Then he offered to fight any pugilist weighing 125 pounds, and his challenge was accepted by the unknown, who proved to be Robert McCluskey, a man who never before fought in a ring. Aaron weighed 124 pounds and McCluskey 127. Aaron had the best of the lighting, punishing the unknown badly, until the seventh round, when

SOME POLITICAL POINTERS.

The Second Ward Republican Club Meet At Kessler's Hall.

A JUBILEE GATHERING TO-NIGHT

The Fourth Ward Republican Club Repudiates the Nomination For Councilman At Large—The Prohibitionists' Movements.

The Second Ward Republicans.

About forty of the Second ward republicans met at Kessler's hall, on Thirteenth street, last evening. T. L. Van Dorn, the chairman of the club, presided. Mr. Brodbeck was secretary. Resolutions were adopted endorsing the nomination of W. J. Broatch for mayor and the whole ticket. Every person present pledged himself to support the candidates of the city convention from top to bottom. There was no little enthusiasm and it was increased by the arrival of Mr. Broatch while the meeting was in progress. He made a brief but pointed speech and elicited hearty applause.

The Seventh and the City.

The Seventh Ward Republican club will hold a meeting at Hanscom's park this evening to win all the grocers and butchers of the city are invited. It is desired to make it a sort of a jubilee republican love-feast, and to have enough speakers from all of the wards of the city present to give it a thoroughly municipal character.

The Fourth Ward Meeting.

The Fourth ward republican club held a meeting at the city hall last evening at which there were about thirty gentlemen present. J. R. Webster was chairman. The meeting adopted a resolution to the effect that the nominee for councilman at large, Mr. Woodman, was not the choice of the republicans of the ward, and it was the sense of the club that he ought to withdraw. While this action represents the sentiment of some of the republicans, the fact remains that Mr. Woodman is the regular nominee and it is probable that he will decline to be dictated to by the coteries of the presumed managers of political affairs in the ward.

The Prohibitionists.

The following is the call of the prohibitors for their convention to-night: OMAHA, Neb., April 27, 1887.—Dear Sir: You are respectfully and earnestly invited to be present at the prohibition city convention which will be held in the Buckingham on Thursday, April 28, at 8 p. m. The committee on nominations will report to this meeting. Please do not fail to attend.

AMUSEMENTS.

OTHELLO.

"Othello" seemed a tame affair compared with the previous performances which Booth has given. Booth's admirers failed to see enough of him in the secondary part that he assumed last night, and while his Iago was all that it could be, there wasn't enough of it. There is decidedly more in the character of the designing and crafty Iago than there is in the following Iago. Moore, and the cold plotting and fitness of Iago admirably fits certain qualities of Booth, but it does not serve to display his powers to any great extent. He is more satisfying in other roles, however, and he may be in the end Charles Barron played Othello crudely. His passion was rant and his claim was monotony. John Malone delivered Brabantio's lines with intelligence, and the Emilia of Mrs. Augustus Foster was very good.

A HORSE IN A CHINA SHOP.

General Destruction of Fine Crockery—Runaway With Disastrous Effect.

About five o'clock yesterday afternoon the whole length and breadth of Sixteenth street became excited over a runaway which started on Capitol avenue and ended in the store of the Omaha Crockery company in the Masonic block. The horse was attached to a light buggy, and in front of the Masonic block the carriage, which was entirely empty, was thrown upon its side. The horse suddenly reared, and the buggy was hurled and plunged manly into the doorway of the Omaha Crockery company's store. The horse succeeded in going down an aisle between two tables loaded down with expensive crockery, and a Japanese ware. The carriage only made a part of the trip through the aisle. The two tables were tumbled over, and the valuable crockery was generally wrecked. The damage was about \$500.

STOCK DISCRIMINATION.

The Nebraska Shippers' Association and the Railroads.

At a recent meeting of the Live Stock Shippers' association of Nebraska, a number of wellknown shippers spoke upon the subject of discriminations which, in some instances, are being practiced by the railroads to the disadvantage of South Omaha. After the subject had been discussed to some length and a number of instances mentioned in which shippers had been fairly treated by the various railroads, a committee was appointed to inquire into these discriminations and furnish a report for publication. The committee appointed was D. Anderson, James Danley, A. C. Virgin, James Foley and John Lansing, all respectable live stock shippers, and a representative party. All of these gentlemen are interested in the South Omaha market and although some of them may occasionally sell a load of hogs in Lincoln or Nebraska City, they recognize South Omaha as the only live stock market in Nebraska. As the members of this committee resided in different portions of the state they each agreed to turn in the complaints which they had to make to one member, who should compile them and sign the names of the other committee members to the report. The report was handed upon David Anderson, one of the oldest shippers of live stock in the state, who ships from Columbus, but resides in South Omaha. Mr. Anderson faithfully took up his pen in writing the report made at the meeting of the association, and others presented to him by reputable shippers, and embodied the same in a report denouncing railroad discrimination. This report was presented to the Board of Public Utilities, and was crowded out of the last minute by the press of other matter. This report was made the subject of what was intended as a sensational article in an evening paper. The report was characterized as "the infamous trick of rivals against South Omaha"—as the work of conspiring railroads as giving false reports of railroad rates to the South Omaha for the purpose of turning away shippers. Perhaps David Anderson who has his all invested in South Omaha real estate, and who has lately induced other members of his family to invest their all, is working to destroy South Omaha. Perhaps the Live Stock Shippers' association, each member of which has given a pledge to do all in his power to uphold the Omaha mar-

ODDS AND ENDS.

Stray Leaves From Reportorial Note Books.

The law against opium smoking in Omaha appears to be a thoroughly dead letter. At times the police have made attempts to break up the opium dens, but for various reasons have not been the least successful. An intelligent and well posted Chinaman said the other day, in conversation with a reporter, that the opium dens were so numerous in the city which did not have several opium-smoking outfits, while many of them are notorious places of resort for both white and Chinese "hop heads", that the Twelfth street between Farnam and Douglas.

Need of Postal Assistants.

Postal Inspector King has returned to Denver, from which place he will mail to the postmaster at Washington the report he proposes to make upon the clerical needs of the postmaster. The impression prevails in the postoffice that Mr. King will favor an increase of the force by four men, though the actual needs of the place require at least eight. If but four be given, another increase, to restorative law, will be necessary by the end of the year, so rapidly is business increasing.

SWINDLER.

Does not refer possible purchasers to his victim. The Athlophoros Co. gladly refers sufferers from rheumatism, neuralgia, sciatica, nervous or sick headache, kidney and liver complaints to those who have been cured of these diseases by Athlophoros, and will furnish names and addresses of many such persons to those desiring them. Athlophoros is the only remedy for these diseases that can stand such a test.

Edgerton, Pa., Jan. 15, 1885. I was afflicted with rheumatism for many years, and it had become chronic in the worst form, and after taking two bottles of Athlophoros I have never had a return of it for six months. It does more than that; my wife was afflicted with neuralgia for twelve years, had an attack every month. After taking one bottle six months ago, she has only felt it once or twice since.

J. C. Deome. Mrs. Thos. McCue, Sanford block, corner 8th and Main streets, Dubuque, Iowa, says: "I am still well. Last winter was a very severe and cold one for me, but I did not have any return of the rheumatism. Athlophoros has proven a good medicine for me." About a year ago, McCue had a very severe attack of inflammatory rheumatism, in which the feet and hands were very much swollen, so much so that you could scarcely see one of the ankles, and some of the toe nails were completely covered for many weeks. She had suffered almost the agonies of death. Finally after resorting to various remedies with no avail her husband noticed the advertisement of Athlophoros. The result of its use was miraculous; the swelling was soon reduced, the pain subsided, and she was again up and around and has not been troubled since.

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist the Athlophoros Co., 122 Wall St., New York, will send either, carriage paid, on receipt of regular price, which is \$1 per bottle for Athlophoros and 50c for the Pills.

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diseases of the brain, sciatica, neuralgia, rheumatism, etc., Athlophoros Pills are unequaled.

Cancer, Scrofula, Eczema, Blood Poison, Maralaria, Ulcers, and all Diseases Caused from Impure Blood.

Cancer of the Tongue. My wife, cancer of four years ago, was troubled with an ulcer on the side of her tongue near the throat. It was so large that she could not eat and produced great nervous prostration. Accompanying it were several other kinds of cancerous growths, and she was in a very weak and emaciated condition. She had been treated by the best physicians and had spent thousands of dollars. She was advised to try the Electric Belt, and she used it for three weeks, and she was cured. She is now as well as ever, and she has gained weight and strength. She is now 60 years old, and she has never had a return of the disease. This is a true story, and it is a great testimony to the power of the Electric Belt. It is a great blessing to the suffering. It is a great relief to the afflicted. It is a great cure for all diseases caused from impure blood.
